

# LAKE NDUTU / NGORONGORO CONSERVATION AREA/NGORONGORO CRATER/SERENGETI NP

Lake Ndotu Ngorongoro Conservation area and South Serengeti... home of the Great Migration during calving season... up to 8000 calves a day

## DAY SAFARI LAKE NDUTU/NGORONGORO CONSERVATION AREA AND SOUTH SERENGETI (BSA-03)

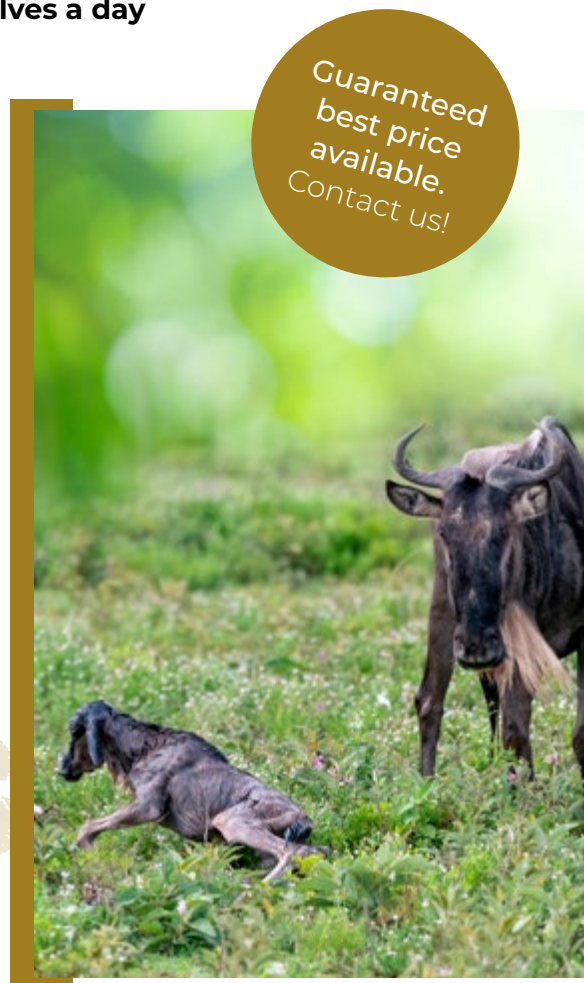

Shared transfer and safari vehicle  
Only on Friday and Saturday  
(Valid from 28 December 2022 till 31 March 2023)

After a 1hr 20 minutes flight, you arrive in the South Serengeti Great migration area. Huge herds of wildebeest and zebras are attracted to the Lake Ndotu area by the seasonal rains. In this period, the best area for game viewing is the plains around Lake Ndotu, where the wildebeest herds are concentrated. Most calves are born in January and February, some 8,000 per day.

Explore the plains of the Ngorongoro Conservation Area and the South Serengeti, to see what the Great Migration is about.

After a 1hr 20 minutes flight, you arrive in the South Serengeti Great migration area. Huge herds of wildebeest and zebras are attracted to the Lake Ndutu area by the seasonal rains. In this period, the best area for game viewing is the plains around Lake Ndutu, where the wildebeest herds are concentrated. Most calves are born in January and February, some 8,000 per day. A visit to the Serengeti National Park, must

be on your bucket list, and to this on a Day safari, is really special. Most safari game drives concentrate along the Seronera River and with excellent reason: lion sightings are common and the riverbank is home to one of the world's densest population of leopards. The sausage trees and umbrella thorns rank among the best places in Africa to search for leopards.
