Explanations on taxes, fees and levies

Infrastructure tax¹ of US\$5 per person per day is payable to the Zanzibar government. The tax is to be collected by the hotel accommodation from all in-house guests on behalf of the Zanzibar Revenue Board (ZRB).

TDL² refers to a government tax called Tourism Development Levy. The hotel accommodation is obliged to collect this bed night levy on behalf of the Tanzania Revenue Authority (TRA).

Village fee³ refers to a village levy imposed by the village council in which, or near to where the hotel accommodation is located. This amount varies per location and is to be used by the village for support and development.

Remark To bring more simplicity and unity in the Tanzania mainland taxes for our lodges, we have combined TDL² and Village fee³ into a fixed amount of US\$2.50 per person per night..

WMA fees⁴ of in total US\$29.50 per person per night apply on overnights in hotel accommodations located in a Wildlife Management Area. It consists of a bed-night levy (also called 'concession fee') of US\$10+18% VAT and US\$15+18% VAT Wildlife Division/Conservation fee to MNRT. Vehicle fees also apply.

Gate fees⁵ apply on the road to Natron. There are 3 different gates in the area; usage of these gates sum up to a total of US\$35 per person per stay.

Ngorongoro Concession fee⁶ applies when you overnight in Ngorongoro Conservation Area. The fee is per person per night. 5 - < 15 years: US\$35.40 / Adult >15 years US\$70.80.

TANAPA Concession fee⁷ applies when you overnight in a TANAPA (Tanzanian National Parks Conservation Area.) The fee is per person per night. 5 <15 years: US\$35.40 / Adult >15 years US\$70.80.

Value Added Taxes (VAT) Our published accommodation rates are including 15% VAT in Zanzibar and 18% VAT in mainland Tanzania.

IMPORTANT UPDATE Zanzibar authorities have implemented a mandatory requirement for visitors to purchase a specific travel insurance designated by the government. For more details, please [click here](#).

Published info and rates (December 2024) are subject to changes in government taxes and village fee increases or levy changes.

Africa Safari Serengeti Kusini

Kusini Plains - Serengeti National Park

Africa Safari Serengeti Kusini is located in the southern Serengeti National Park, in the corridor of the famous wildebeest migration, offering sightings of all the wildlife you would expect from the Serengeti. The Kusini Plains captivate tourists with its expansive savannahs and rich wildlife diversity. Here, the spectacle of millions of wildebeests and zebras in rhythmic migration unfolds against a golden grasslands backdrop. Beyond the migratory herds, the area hosts an array of resident wildlife, including lions, giraffes, buffalo, and elephants.

The Kusini Crater is not an actual volcanic crater, but rather a circular-shaped grassland surrounded by a forest of acacias. Offering dramatic vistas and lush vegetation, it serves as a haven where diverse wildlife congregates around watering holes visible from the crater's rim. When travelling between Kusini and Ndutu, there is the opportunity to discover the Hidden Valley, a depression and water catchment area teeming with wildlife during the green season. This region, known for its predatory action, often witnesses large clans of spotted hyenas wallowing in the muddy shores.

Africa Safari South Serengeti

Lake Ndutu - North Tanzania
Ngorongoro Conservation Area
Ngorongoro Crater - Serengeti National Park

Africa Safari South Serengeti is perfectly situated within the Ngorongoro Conservation Area, with convenient access to the crater, and on the south side of Lake Ndutu, just outside the Serengeti National Park. This is truly the best of both worlds! This area is famous for the calving season of the Great Migration, an absolute highlight of the annual wildebeest migration. The short rains in November and December create nutrient-rich pastures for the wildebeest, which remain in the vicinity until the end of the long rains and most calves are born in January and February. Whilst the open grassy plains offer them some safety, these young wildebeest attract hungry predators, such as lions, leopards, cheetahs, and hyenas. The area around Lake Ndutu is also famous for being home to 6 species of big cats (lion, cheetah, leopard, serval, African wild cat and caracal) which are present throughout the year. Between April and November, the south-eastern plains dry out, but there is still an abundance of game in the area as there are two important water sources, Lake Masek and Lake Ndutu, where many wild animals come to drink.
